## About CHIA NSW

The Community Industry Association of NSW (CHIA NSW) is the industry association for community housing providers in NSW. We have 88 full members who manage portfolios ranging from 4 to almost 5,000 properties. We also have 15 affiliate members who provide housing related services such as crisis accommodation and 13 associate members.

We are a Registered Training Organisation, and through our Centre for Training in Social Housing, provide Certificate IV, Diploma and other specialist training in social housing management to both non-government and public housing staff in a number of jurisdictions.

We also provide specific consultancy services to members in areas such as business and strategic planning, tenant participation, policy development, governance reviews, and organisational reviews.

CHIA NSW has supported the development of tenant engagement in the community housing sector for many years. For example, we set up and provide ongoing support for the NSW Community Housing Tenant Network, and we established and support the Community Development network. CHIA NSW has also provided many tenant participation consultancies within the sector, a Tenant Participation Good Practice guide, a Community Engagement guide and Diploma and Certificate IV training on Community Renewal, Tenant Participation and Community Development. CHIA NSW staff have detailed knowledge of tenant participation and engagement processes and systems from Australia and internationally.

Our independence, our knowledge of the community housing sector and our knowledge of and commitment to tenant engagement means we are able to provide an in-depth analysis of the information provided by tenants.

## About the CHIA NSW Exchange

The CHIA NSW Exchange is an event consisting of sharing ideas across networks within the community housing sector. These networks include CEOs, Asset, Finance Officers, HR, Planning and Development, Middle Managers, Community Development, Aboriginal Community Housing Providers, Tier 3, and NDIS – to name a few.

The Exchange presents a unique opportunity to network and learn about the latest news, developments and updates within the sector, over a two day event.

## ASSET NETWORK – FULL DAY

### 9.30am Energy financing and business model options

*Jeremy Burke, Head of Product & Strategy, Impact Investment Group and Alex Houlston, Director, BoomPower*

Community Housing Organisations' core business is rightly the provision of affordable housing. Therefore, any competing demands on capital, such as energy upgrades, are given a lower priority.

CHIA (Vic), BoomPower, Impact Investment Group, the Lord Mayor's Charitable Foundation and Bank Australia have been collaborating to assist organisations to identify and match appropriate financial and business model options, designed to enable implementation of energy upgrades on a wholesale basis.

Focusing on potential charging and ownership models for energy efficiency, solar and batteries, this free session for CHIA NSW members will collectively and directly address what CHPs say is the final practical barrier to wholesale action - the split incentive (energy upgrade costs to organisations: energy savings to tenants).

### 11:15am Asset Management for older people

*Lindy Ryan, Property Service Manager, Women's Housing Company*

Women's housing Company manages 850 properties with 63% of their tenants being aged 55 years and over (including 20% aged over 75). With a focus on services and programs to support older women in social housing, Lindy will give an overview asset management for older people.

### Asset Management: A Challenging Business

### 1.30pm Repairs & Maintenance Satisfaction and SHMT Campaigns

### **Scoping an Industry Development Project to improve access for people with intellectual Disability**

*Deborah Georgiou, Head of Policy CHIA NSW*
